- 5&6& step right to right side, hitch left behind right, step left to left side, hitch right behind left
- 7&8 step right to right side, hitch left behind right, step left to left side

Floor split section on the last 32 counts

When the last 32 counts of the dance are being done, the floor is split into 3 sections. The section on the right when facing the front wall (when facing the back it will be the left side) starts the first 8 counts in the last 32, they keep dancing through the rest of the dance. The left side of the floor (when facing the back wall will be the right side) stops dancing on count 96 and hold for one 8 count, then finishes out the last three 8 counts of the dance. The middle of the floor (I hope you know where you are) stops on count 96 and hold for 2 8 counts and finishes the last two 8 counts of the dance with everyone else.
